

# Rutgers-Taiwan: Engineering Management in High-Tech Industries

HOSTED BY THE MBS DEGREE PROGRAM | OPEN TO ALL RU STUDENTS

## WHERE INNOVATION MEETS CULTURE

### **Study the semiconductor industry in Taiwan!**

Join this immersive 3-credit summer course in Taipei to explore the operational heartbeat of Taiwan's world-leading semiconductor sector.

Dive into operations and process management, supply chain resilience, and quality control through classroom sessions, guest lectures by industry professionals, expert panels, and real-world case studies.

Whether you're pursuing engineering, management, business, or applied sciences, this program offers interdisciplinary insight and global relevance.

### FACULTY LEADER

**Dr. Hae Chang Gea**  
Professor, MBS  
Engineering  
Management  
Coordinator

**Step into the future of high-tech leadership –  
secure your spot today.**
